## SULTAN HAS GIVEN ORDERS

**That Conditions Demanded by Raisal for Release of Captors Shall be Granted.**

Tangier, Morocco, June 8.—The Sultan's letter in reply to the diplomatic representations made in regard to the kidnapping of Metars, Perdicaris and Vixley arrived here this afternoon.

It is said by a person in the Sultan's confidence, that the Sultan has given orders to grant all of the conditions demanded by Raisal, the bandit leader, in order to expedite the release of the captive.

The Sultan, in his letter, appoints Herid El Barranda to be governor of Tangier, which step, was included among Raisal's demands.

Barranda was a member of the council of Mohammed El Torres, the representative of the Sultan here, and formerly was governor of Mazagan.

The authorities here assert that the raid made yesterday by armed Anjara tribesmen on the home of an Englishman here, during which they obtained several rifles, was only a common robbery and had no political significance.

Rear Admirals Jewel and Chadwick visited the British battleship Prince of Wales today, and received the customary salutes.

**Will Secure Toga Left by Death of Senator Mathew S. Quay.**

Conference Held Last Night at Which Penrose, Dunham and Pennypacker Were Present—Result Unknown.

Philadelphia, June 8.—State Chairman Penrose and State Insurance Commissioner Dunham, who went to Harrisburg yesterday to confer with Governor Pennypacker, returned to this city at noon today, and were met by a delegation of politicians and newspaper men eager to learn the latest in the senatorial situation.

Both again declared that there is nothing new; that no agreement has been reached and that they did not know when the republican organization would name a successor to Quay. Senator Penrose added that Governor Pennypacker was not asked to agree upon it. The senator put a quietus in many rumors that John Mitchell, president of the Miners Union, will confer with him in the interest of a candidate favorable to the mine workers of the state. Senator Penrose said he has not seen Mr. Mitchell and does not expect to.

Politicians were general at sea today as to who the possible candidate to succeed Quay will be. The withdrawal of George T. Oliver of Pittsburgh, has revived that Richard M. Quay, son of the late senator, will be named. The fact that Mr. Quay was here today and saw Dunham and Penrose, gave color to the story.

## THAT MONSTER.

Philadelphia, June 8.—Mary Richardson, a young married woman, was today stabbed through the heart by May Richardson, her sister-in-law during a quarrel. The women met in a real estate office and after a few words, May drew a knife and drove it through her heart. Jealousy was the cause.

**Without Showing Concern the Alleged Massacre Walked Through Solid Rows of Curious Persons to Police Station.**

New York, June 8.—Hannah Elias, the Octoroon, charged by John R. Platt with having procured from him by blackmailing methods nearly \$700,000 passed the night in the Mercer street police station.

She was taken from her palatial residence in Central park, west (where the doors were knocked down with axes) to police headquarters in a carriage. She delayed so long at home arranging her toilet that the latter place was not reached until nearly 2 o'clock. After having given her name, age, etc., she was taken to Mercer station for the night. Efforts to serve a warrant on Mrs. Elias in a civil suit had kept a crowd about her house for a week, and when the detectives attacked the doors with axes, in order to serve a warrant in criminal action which Mr. Platt finally had been prevailed upon to bring, there was a large audience. As Mrs. Elias left the house, leaning heavily upon the arms of the detectives, she had to pass between solid rows of curious persons, while street cars, carriages and automobiles were lined up in order that these passengers might view the outcome of the strange siege which has been on for days.

Mrs. Elias expressed no concern over her arrest. The specific charge on which the warrant was based is the alleged extortion from Mr. Platt, of \$7500 in May last.

Justice Clark in the supreme court this afternoon issued a writ of habeas corpus for Mrs. Elias, returnable tomorrow.

Mrs. Hannah Elias, who was arrested last night charged with extortion by John R. Platt, was arraigned today, and held in \$50,000 for examination next Friday. Bail was not furnished and she was committed to the Tombs prison.

**Report of Great Lady Keeper Shows There Are 1699 Hives, a Gain of 71 Percent in Two Years.**

Battle Creek, Mich., June 8.—Business sessions of the Great Camp of the Knights of the Modern Maccabees and the Great Hive of the Ladies of the Modern Maccabees began today. Delegates from 17 states are attending the sessions of the Knights.

In his biennial report, Great Commander N. S. Boynton, of the K. O. P. M., called attention to the great growth of the order which has now a total of 126,500 members 119,000 of whom are in Michigan. He recommended the appointment of a committee on claims so that death claims may be more quickly adjusted and declared he did not believe that the great camp should even seriously consider the proposition to move the headquarters of the order from Port Huron to one of the other Michigan cities which are candidates for the location. He states that it is proposed to raise the rates of the order after October 1, 1904 as follows: Twenty cents per thousand between the ages of 40 and 45, 25 cents between 45 and 49 and 50 cents between 49 and 51 and also to make an additional increase of 25 cents on an extra thousand of insurance over the rates charged for the first thousand. Great Record Keeper A. M. Slays report showed a total number of deaths during the term 1,340 and a total amount of death claims paid by the great financier during the term of \$1,663,719. The total amount paid in death claims since the organization of the order is \$7,533,399. The report of Great Lady Record Keeper Emma E. Bower, made at the sessions of the great hive, shows that there were 1,699 hives in existence, December 1, 1903, a gain of 71 for the past two years. The total net increase of membership for the two years was 11,683.

**All They Secured After Blowing Express Car Into Splinters, and Shooting Brakeman in His Leg--When Pursued They Fled to Mountains--Posse in Pursuit.**

Denver, June 8.—Denver and Rio Grande passenger train No. 5 west bound from Denver has been held up by five masked men, three miles west of Parachute, a small fruit station midway between Grand Junction and Glenwood Springs.

One sealed bag containing specie was taken from the express safe, which was dynamited. The express car was badly wrecked by dynamite, but the robbers were forced to take to the mountains before they could gather up the valuables in the car. Sheriff W. G. Struthers and Deputy Sheriff D. M. Hardy of Grand Junction, are now on the trail of the robbers, with a posse of farmers and ranchers, quickly summoned from the vicinity of Grand Junction. Sheriff Frank Adams and another posse from Glenwood Springs, are also scouring the surrounding country. When the train reached a point three miles west of Parachute, two masked men crawled over the tender of the engine and they placed pistols at the heads of Engineer Allison and his fireman and made them stop the train. Three men who were waiting on the tender then jumped down and uncoupled the express and baggage cars. The cars with the engine were run two miles further west. The train crew received orders to remain behind on pain of being shot. When the point selected for the dynamiting of the express car was reached, Messenger D. M. Shea refused to open the car and piled the baggage up in front of the door.

The robbers, with a stick of dynamite blew away the side door of the car and half a dozen trunks were demolished. The great iron combination safe was the only one in the car. The robbers showed that they were conversant with conditions on the road, for they did not even ask the messenger to open the safe. They knew that he did not have the combination. This safe can only be opened in Denver and in Salt Lake City. A stick of dynamite was then placed against the lock of the safe. At this point Brakeman Shellenberger, who had been ordered to remain with the passenger coaches, two miles behind came running up with a lantern. One of the robbers shot him in the leg. He is now in a hospital at Grand Junction.

When the robbers saw that the train crew were coming they fled to the mountains. One of them, as he jumped from the express car, grabbed one sealed bag which had been blown clear out of the safe. This was the only plunder which was taken. After the holdup, the engine, baggage and express cars backed to Parachute, where the alarm was given. The scene of the robbery was only 600 yards from Grand River and it is believed that the robbers had a boat hidden in the Grand and they used this to cross the river, destroying it after they had crossed. The robbers who held up the Rio Grande train at Unawee a year ago escaped in a similar manner. Sheriff Struthers believes that the robbers escaped on horseback after crossing the river.

## BROKER SHOTS DOWN HIS MAN.

**Quietly Walks to Police Headquarters, Gives Himself Up, and Telephones His Wife of Crime He Had Committed.**

Albany, N. Y., June 8.—At an early hour this morning Richard E. Preusser, of the broker firm of R. E. Preusser & Company, 43 Broadway, this city, shot and instantly killed Miles B. McDonnell, a traveling man of Boston, in the latter's room on the second floor of the Ten Eyck hotel. Preusser then quietly walked down the stairs, through the lobby where a dozen people were sitting, and out to the street to police headquarters. At the entrance of the latter building he met two officers who were on their way to the Ten Eyck having been telephoned for. Going up to them, Preusser said in a quiet tone: "I've just killed McDonnell and I came to give myself up." He then obtained permission to use the phone and inform his wife that he had killed McDonnell and was then at police headquarters where he had given himself up. Mrs. Preusser arrived at headquarters a few minutes afterwards and the two had a long talk in Chief Hyatt's private office, after which Preusser was placed behind the bars.

**Victim A Murderer.**  
Boston, June 8.—Persons associated with Miles McDonnell, the victim of last night's shooting at Albany, in the management of the Metropolitan stock exchange here, says that Preusser was an intimate friend of McDonnell and they could attribute the shooting only to intoxication or insanity. It has been learned that McDonnell shot and killed George Price in a New York cafe, December 27th, 1900, in a quarrel over gambling matters. McDonnell surrendered to the police, claiming that he acted in self defense and was acquitted after a brief trial.

## THIS MURDERER COURTS DEATH.

**He Has Lost Both Eyes, and Begs Sheriff to Turn Him Over to Mob Clamoring for Him.**

Chicago, June 8.—A special despatch from Carmi, Ill., says: A mob surrounded the home of John Robinson at Maunie, early today, clamoring for his life. Sheriff Connerly and 36 armed deputies were keeping back the riotous crowd. It was thought the mob would not succeed in its mission as the officers were determined to do their duty. Robinson, who killed his wife and brother-in-law and then attempted to take his own life on Monday, has sufficiently recovered to discuss the crime. He shows no emotion and only says, "people don't kill one another for nothing."

He invited Arthur Bury, his brother-in-law home with him. They quarreled and Robinson shot and killed Bury. His wife then was shot to death as she held her baby. Robinson then shot himself. On learning that he was not dead, a mob formed and attacked the place where Robinson is being cared for. He has lost both eyes and begs the sheriff to let the mob have its will.

# MARTIAL LAW HOLDS

Victor in Its Firm Grasp and Comparative Quiet Now Reigns.

## Slayer of McGee In Corral.

Orders Issued to Take Him and His Companions Dead or Alive—Union Organ Appeals for Cessation of Strike by Union Miners in District.

Denver, June 8.—A despatch to the News from Victor, Colo., says that martial law was declared in the Cripple Creek district at 2 o'clock Tuesday afternoon by the posting of the governor's proclamation at a number of places in the camp. The posting was done under the instructions of Adjutant General Bell, who arrived at Victor from Denver this morning.

Conditions in the camp are quiet according to all accounts. General Bell has assumed command of the militia and control of the district, and has called a council of the first local militia companies. He has ordered Col. Verdeckberg, who had charge of affairs in the district when martial law ended there several months, to the district.

The proclamation read as follows: Whereas, there exists in Teller county, Colorado, a large number of armed persons acting in conjunction with a large number of persons outside of that county, who are fully armed and acting together for unlawful purposes, and,

Whereas, open riot and insurrection now exists in said county of Teller and felonies and murder have already been committed by such persons and are still threatening to commit murders and felonies, and are offering violence to the citizens and property in said county and are resisting the laws of the state of Colorado, and,

Whereas, at divers and sundry other times, various crimes have been committed in said county of Teller by and with the aid and under the direction of said violent and lawless persons and the security of persons and property is now threatened in said county, and,

Whereas, threats, intimidations and violence are threatened and believed will be resorted to by said lawless class of individuals, and,

Whereas, it is represented to me by the sheriff of said Teller county that the civil authorities within said county are unable to enforce the laws to secure peace and order in said county, and that it is necessary to put the military into said county for the purpose of enforcing the laws and restoring peace and order.

Now, therefore, I, Warren A. Haggitt, acting governor and commander in chief of the military forces of the state of Colorado, by virtue of the power and authority in me vested do hereby proclaim and declare the said county of Teller in the state of Colorado to be in a state of insurrection and rebellion.

In testimony whereof, I have hereunto set my hand and caused the great seal of the state of Colorado to be affixed at Denver, the state capital.

This seventh day of June, A. D., '04. Warren A. Haggitt, acting governor. Sherman Bell, Brigadier General and Adj. Gen.

Early today, Gen. Bell and the mine operators led by Chas. M. MacNeal and C. C. Hamlin, were preparing to take a secret trip down the short line railway, their destination being unknown, every member of the party taking the greatest pains to conceal the fact.

OFFICIAL  
Of Mine Federation Appeals For Cessation of Strike.

Victor, Colo., June 8.—The Record, owned and edited by Geo. Kyner and recognized as the official organ of the Western Federation of Miners in the Cripple Creek district, published an editorial today, urging the miners to call off the strike inaugurated ten months ago. The article says:

"The sentiment is growing against the Western Federation of Miners on account of its continuing the strike. There are few people who believe that this organization of miners is responsible for the crimes that have been committed here except that if the strike had not been called and continued so long the dynamiting would not have occurred. And in that respect the strikers are responsible for this outrage, whether there was justice in the calling of it or not. In the interest of the men and women who have made the Cripple Creek district the Record asks the Western Federation of Miners to call off the strike. Miners living in this district are losing their homes or being obliged to go away and leave them. One of them, when they express their convictions as many of them have to the writer, believe there is any change of winning the strike but that the longer it is kept going the further they are away from securing work. They are not in a position to stand it much longer, and the Record asks, as laborers bent and demonstrated friend through this hard struggle, that it be called off at once."

"The Record does not have the confidence of the mine owners, of the military or of the Citizens Alliance and it makes this plea solely in the interest of the men and women of this district that are without work, without money, without food and who believe there is no hope of winning the strike and want it called off."

Frank J. Angus, leading attorney of the Western Federation of Miners here has been warned to leave the district.

MRS. PAUL BURNS, Parkersburg, W. Va., writes: "I want all my friends to know the great good of Dr. Williams' Pink Pills. I suffered for months with nervous prostration, sick headache and kidney and bladder trouble. After holding consultation, four doctors said I could not live without an operation, and I was too weak to have one. But when I took Dr. Williams' Pink Pills, I felt better and I had a good night's sleep. The doctor called the pink pills. He said I could walk around the room, and after the fourth bottle I was able to walk out-of-doors."

## FIRST BLOOD FOR BECKHAM.

An Over-night Surprise Sprung on Delegates to Kentucky State Convention.

Louisville, Ky., June 8.—An over-night surprise for the delegates who have come to Louisville to attend the democratic state convention was the announced withdrawal from the race for temporary chairman, of Hon. Ben. Johnson, the "Anti Machine" candidate.

Although the convention is called to elect delegates to the St. Louis convention, this feature has been lost sight of in the long and bitter struggle which has been waged for control of the state central committee. Governor Beckham and the administration forces are supporting Lewis McQuown for chairman of the state central committee.

U. S. Senators Blackburn and McCreery and Congressman D. H. Smith are opposing the governor and have been supporting Congressman J. N. Kehoe for the coveted prize. Mr. Johnson was in conference today with senator Blackburn and an authoritative statement could not be secured, but the belief was quite general that Mr. Johnson had withdrawn and that he would not reconsider. It seemed probable therefore that Governor Beckham and his friends had won the day. In that event it was said the governor would be temporary chairman of the convention. The convention was called to order this afternoon in the Horse Show building, by Hon. Albie Young, the present state chairman.

As Gaudy as General Corbin. King Edward at his levee yesterday enriched the vocabulary of the English language by receiving with all due formality the Alake of Abokoma. It is not surprising to learn that potentate with such a title wore a wonderful robe of canopy colored silk and satin, and that his headgear was ornamented with lizards. Anything less would have fallen short of the mark.

Three Great Humorists. I have remarked in several quarters that it was a great mistake to leave Colonel Bryan, Mr. Murphy and Colonel Waterson off the invitation list for the gathering of the American Press Humorists in St. Louis. Mr. Murphy edits the City Record, one of the funniest papers on earth, and there surely can be no question as to the eligibility of the other two.—New York Telegram.

#### STUB CHECKS WERE BOGUS.

Pittsburg, June 8.—A sensation was caused in Orphans court today during the hearing of the suit of Nattie W. McLean, former stenographer for Recorder J. O. Brown deceased, to recover 88 shares of Colonial Trust company stock from Brown's estate. J. B. Black, a handwriting expert, testified that the stub checks, submitted by Miss McLean to support her claim, were bogus and that the paper on which the checks were made and that of the alleged stubs came from different printing houses.

## WEATHER.

Washington, June 8.—Forecast:  
Partly cloudy tonight; Thursday fair,  
warmer in west and south portions.

Pearl's still hangs on at Hanging  
Rock without the aid of state troops.

One of the late day wonders is the  
number of widows who can have in-  
sight from seeming oblivion, immedi-  
ately after the death of a millionaire.  
Indeed he is a poor, mediocre, dead  
capitalist in whose memory less than  
two apply reflects to the probate court  
for the purpose of reading his last  
will and testament.

With thousands of Sunday school  
workers whose highest life work is to  
prepare the young and bid for a blessed  
immortality, and several hundred  
undertakers whose modern specializa-  
tion is to fix up after death that  
we can go on eternally, some what  
like our own, dear, old selves—all in the  
city—what else could the people of  
Lima ask for, except a convention of  
doctors to give these delegates and  
undertakers a chance to prove that  
they can do the things they claim they  
can do?

A correspondent of the London  
Standard says of the Japanese troops:  
"They are indeed revealing a strange  
mixture of characteristics, for, while  
as mercenary as a Southern race, as  
fond of the rush and passion of swift  
action, and as headless of conse-  
quences when once aroused, yet they  
have a depth of passivity, a power of  
waiting rivaling that of their more  
phlegmatic Russian foes. Though  
taunting the least, they will not start  
until the order is given and then their  
rush has all the mad fanaticism of a  
Derby charge, with the wariness of  
a Boer attack."

Senator Dewey is certainly open to  
the charge of "putting his foot in it,"  
in his attempt to explain the presi-  
dent's shiftness in regard to the "far-  
left" question. "Mr. Roosevelt in his  
early political days," he says, "was a  
student and believer in free trade, but

## A Bad Stomach

Lessens the usefulness and marries the hap-  
piness of life.

It's a weak stomach, a stomach that can  
not properly perform its functions.

Among its symptoms are distress after  
eating, nausea between meals, heartburn,  
belching, vomiting, flatulence and nervous  
headache.

## Hood's Sarsaparilla

Cures a bad stomach, indigestion and dys-  
pepsia, and the cure is permanent.  
Accept no substitute.

When he found the republican party  
added to the doctrine of protection  
he did not desert the party, but accept-  
ed it and swallowed the protection.  
This is the truth, of course, but it is  
stated in a way that must make Mr.  
Roosevelt wince. He has swallowed  
his convictions for the sake of getting  
high office. But he does not wish to  
be frequently reminded of the fact by  
his friends.

## THE PROPER THING.

The real swell disease is roseola.  
The Roosevelt family has it. People  
who don't have such high positions  
socially, call it measles.—Aitchison  
Globe.

## CAUSE OF STRIKE.

The cause of the great miners' strike  
which have been taxing Colorado to  
her utmost capacities for over a year  
was primarily the failure of the legis-  
lature to pass an eight hour law. The  
Thirteenth legislature passed an  
eight-hour law, which was pronounced  
unconstitutional by the state supreme  
court. The election for the succeeding  
assembly was conducted wholly on  
this issue—democrats, republicans  
and populists pledging themselves to  
pass an eight-hour law—but from the  
first week the fate of the measure was  
sealed.

The employees of the Sun and Moon  
mine in Clear Creek county, then  
struck. Several days later an explo-  
sion wrecked the transformation  
plant of the company.

Without formality suspects were or-  
dered to leave town. Then the last  
vestige of law and order was wiped  
out and martial law was declared by  
Governor Peabody. From this time  
on one after another of the mines all  
over Colorado were closed, the men  
going out on strike and the mine own-  
ers, backed by the governor and the  
militia, trying to preserve order. All  
laws have been disregarded, many  
people killed and injured, and the  
state of Colorado put into debt to the  
extent of over \$1,000,000.

## PASS

The Portals Into a  
Wider Field  
Of Education.Grammar Grade Pupils  
Receive DiplomasAnd Will Make Up Next  
Year's Freshmen Class  
of the High School.Exercises Held at Fauror Opera  
House Which Couldn't Accom-  
modate the Big Au-  
dience.

The stage at Fauror opera house  
presented a pretty sight this morning,  
when over 200 of the grammar grade  
pupils gathered to celebrate not only  
the close of one of a year's tutelage,  
but the passing into the lime light of  
the high school. The event is the first  
departure from the exercises as for-  
mally held, when each school conduct-  
ed its individual program, and the  
public found in it a pleasing variation  
and one which will no doubt prevail  
hereafter.

The program was a lengthy one,  
but gave a most excellent idea of the  
talent which will compose the fresh-  
man class of next year. Several of  
the orations were of a high order, and  
if the pupils who delivered them can  
be made to advance under encourage-  
ment, Lima will not lack for candi-  
dates when it comes to oratorical con-  
tests.

The music under the direction of  
Prof. Lull brought out the full effect  
of the school choruses, and the open-  
ing number was sung by the com-  
bined classes, which constituted the  
largest chorus ever trained in the city.

## THE DAIN HAY LOADER

Is not like a crank shaft loader, BECAUSE it has no crank shaft  
and will not wad, bunch or tangle and thresh the leaves off the hay. It is  
not like a drum or cylinder loader, BECAUSE it has no return carrier to  
draw the hay back when it is not kept cleared away from the top of the ma-  
chine.

Lightest draft, narrowest trucks, simplest working parts, automatic hitch  
straight chains, hammock mounted, wheels under frame, rakes have oblong  
stroke of 20 inches over ground and up incline. Best of recommendations  
from prominent farmers in this vicinity.

# OPENING SESSION

the Funeral Directors' Convention  
Held This Morning.

Visitors Are Welcomed

Mayor Robb Who Addressed the Convention  
at the Auditorium—Preliminary Work Is  
Over and the Convention Is Down  
to Regular Business.

undertakers are dividing the  
allies of the city with the Sun-  
day workers. While more than  
hundred delegates to the state  
Funeral Directors' Convention are being  
entertained at the homes of  
hospitable citizens, between  
and 400 visitors, attracted to the  
by the twenty-fourth annual con-  
vention of the Funeral Directors and  
Embalmer's Association of Ohio, are  
entertained at hotels and homes,  
are crowded but all are pleased  
the city and its people, for the  
takers are always satisfied to  
what is left. The Sunday School  
ers arrived in the city a day  
of the undertakers and many  
e latter have, as usual taken the  
ains."

the convention is made up of a dis-  
tinguished appearing body of men and  
women, there being about twenty indy-  
vers of the profession present. All  
ons of the state are represented  
general directors and embalmers  
nclude a large number of the manu-  
urers of undertakers supplies are  
sented by exhibits and agents.  
exhibits have been placed in the  
entrance, reception room and  
the walls on the main floor of  
auditorium and they are valuable,  
entertaining and varied.

**The Session Opens.**  
The three day session was opened  
at 10:30 o'clock this morning and in-  
vited to the members of the asso-  
ciation, quite a large number of other  
persons were present, the morning  
being open to the public, and  
all of the other meetings of the  
convention will be open only to members  
of the association. The morning meet-  
ing was called to order by the presi-  
dent of the association, Mr. J. A. Linn,  
of Philadelphia, and after an im-  
passive invocation by Rev. J. M.  
Linn, a vocal duet was rendered in  
a pleasing manner by Mr. Henry  
and Miss Millie Sonntag.  
The member was received with applause  
President Linn next introduced  
Mayor Robb, who welcomed the visit-  
ers with the following remarks:

gentlemen:—  
was once said by a famous son of  
Ohio, that under certain circumstances  
would welcome the invader with  
ready hands to hospitable graves.  
are not to understand that we re-  
ceive you as invaders, on the contrary  
we are our guests, and as such we  
sit you at the front door with open  
arms, and invite you to enter and  
make yourself at home, with the as-  
surance that the best we have is none  
good for you while you may be  
used to carry with us. Although  
are a necessary adjunct to every  
grave yard, you are not therefore a  
necessary evil. You are a positive  
good. It is true you come high, but so  
do we as we indulge in doctors, we must  
see you, and hence, strange as it  
may seem communities welcome you  
as an advance agent of the "grim reaper"  
with willing hands to profitable  
ends.

Our gentlemen are the representa-  
tives of a very important industry  
and have done us the honor of select-  
ing our city as the place of your meet-  
ing, and on behalf of our citizens, I  
here to extend to you that hospita-  
lity welcome that will make you feel  
at home while absent from home you are  
all with your friends.

In looking over this intelligent body  
of representatives, I positively deny  
my intention to flatter when I say, you  
have shown rare good sense and sound  
judgment, in the selection of a town  
which to meet and deliberate. I  
congratulate your craft; gruesome as  
it may sound, I disclaim any intention  
to make light of a grave subject when  
I say, that you are a class of men with  
a keenness to do business.

On are uniformly prompt, cheerful,  
accommodating, and courteous, and so  
as I am informed, there is no in-  
stance where the subject of your kind-  
ness has ever been registered a  
"k. This speaks volumes for you  
and I am sure I vested with the authority  
to select the subjects I might add.  
I say your business increases."

I don't wish to be considered as  
intending to interfere with the meagre  
profits of your trade in what I  
have a right to propose, but I would like  
to add a suggestion, the result of my  
observations, of the growing extrava-  
gant, pomp and circumstance of the  
average funeral; and that is, that you

exert your influence to correct this  
vulgar violation of the properties, by  
helping to inaugurate cheap, modest  
and unostentatious burial.

The ruling passion of the average  
American, strong even up to death, is  
a display of affluence, real or pretend-  
ed, a frantic desire to keep up with  
the procession, as it were; an aver-  
sion, yes, a morbid dread of being con-  
sidered cheap. This absurd American-  
ism is the cause of much poverty and  
many homeless families, for when the  
head and support of the family,  
dies, the rich neighbor is often "seen"  
and "gone one better," if possible in  
the matter of parade and expense at-  
tending the last sad and solemn obse-  
quies. With the healthy who can af-  
ford it, it is a pompous mockery, with  
the poor it is in addition, in some in-  
stances a crime against the helpless  
and impoverished orphan. I have  
seen homes hopelessly mortgaged to  
pay a \$250 funeral, when the entire  
assets of the decedent was less than  
the legal homestead under our stat-  
utes. Those who are wealthy alone  
can accomplish this much needed re-  
form. It would no doubt be embarrass-  
ing to you gentlemen, to suggest to  
applicants that a \$35.00 coffin, and two  
carriages was all they could afford,  
and to sympathetic friends who can't  
pay their grocer and butcher, that  
they omit the beautiful custom of send-  
ing costly floral tributes, but you will  
never be convicted of a more commen-  
dable virtue, than just such an act of  
charity.

There ought to be an organization in  
every community of those who set the  
pace in fashion and custom, pledge  
to the regulation of this evil. I believe  
in the broadest charity and benevo-  
lence to the deserving living, in the  
most liberal distribution of physical  
necessities to the poor, who we will  
always have with us, and yield to none  
in my desire to pay the proper tributes  
of respect to the dead, and sympathy  
for sorrowing friends, but beyond that  
would gladly see dispensed with, all  
that tends to useless and offensive dis-  
play.

I realize that all this cannot be  
brought about by an immediate and  
radical change, but a start in the right  
direction in my opinion cannot be  
made too soon. My idea of propriety  
on these occasions, would be to have  
such modest and private services at  
the home, as might suit the religious  
ideas of the immediate friends; I  
would then have the funeral directors  
and pall bearers, alone—accompany  
the remains to quiet and proper inter-  
ment.

This of course is open to the ob-  
jection that it would interfere with  
the volume of your business, for I am  
well aware of the fact that long pro-  
cessions of relatives and friends, in  
carriages and afloat, following the cor-  
tege for miles through rain and sleet  
and snow, in wind and storm and  
slush and mud, plants the seed of  
lethargy in more human soil than does  
any other human indifference, but  
pardon this seeming indifference to  
your financial interests; I am still in  
favor of the motion. Have you the  
courage to put it. Gentlemen, please  
accept my hearty good wishes, take  
the keys to the city and proceed to en-  
joy yourselves.

Mayor Robb's address was very ably  
responded to by member George Wick-  
ens, of Lorain, O., who complimented  
the city upon its beauty, progress and  
enterprise and upon the hospitality of  
its citizens. Like the address of  
the mayor, his remarks were received  
with enthusiastic applause.

**The Committees.**  
After a song by a mixed quartette  
from the Lima choral society, the pre-  
liminary work of the convention was  
taken up and President Linn appoint-  
ed the following convention commit-

which the committee on membership  
reported the acceptance of the appli-  
cation of eleven new members—eight  
active and three associate members.  
This report was followed by the re-  
ception of the new members.

The principal numbers on the pro-  
gram for the afternoon were an ad-  
dress by the Rev. R. J. Thomson on  
"Funeral Reforms as Seen From the

trated lecture on "General Circula-  
tion," by Prof. H. S. Eckels, of Phila-  
delphia.

The intention of Colonel Hobart to  
run a special train to Gomer on Fri-  
day, to accommodate those who wish-  
ed to attend the Dr. Jones reception,  
has been thwarted by an unexpected  
event. Yesterday, a bridge on the line  
of the road between Lima and Gomer  
was destroyed by fire, and it is now  
impossible to run the special train.  
This will be a disappointment to  
many who had expected to avail them-  
selves of the C. & L. M. as a way to  
attend the reception.

## CLASS DAY

**Marred By a June Down-  
pour**

**But Baxter Place Took All in Out  
of the Rain and the Exer-  
cises Continued.**

For the first time since the beautiful  
lawn at Baxter Place has been given  
over each year to class day exercises,  
rain marred the occasion, and the  
heavy downpour of yesterday after-  
noon caught the seniors and juniors  
and their friends in the midst of the  
happy occasion.

There was no promise of an abate-  
ment of the showers, and the gradu-  
ates and their friends were invited to  
make themselves comfortable in the  
spacious parlors of the home, where  
the program was carried out, although  
attended with some difficulty on ac-  
count of the large number who were  
anxious to enjoy the always interest-  
ing class productions. The papers  
were of unusual excellence and the  
authors who contributed the "Class

## TOUGH LUCK

Of a Well Know Farmer,  
Wm. Taylor.

Sometime in December last, a far-  
mer, Wm. Taylor, living 2 and a half  
miles north of this city, fell and broke  
his left leg above the knee. He was  
brought to the city hospital, and is  
still an inmate of that institution, and  
probably will be for several months to  
come. Instead of the wound knitting  
and growing together as it should, it  
is said that a gristle substance is grow-  
ing around the bone, and that the  
limb will have to be amputated. Mr.  
Taylor has a large family of six chil-  
dren who are deserving of great sym-  
pathy. They are being cared for by  
friends, brothers and sisters in the  
Mennonite church.

# DON'T DESPAIR DYSPEPSIA CAN BE CURED

From Mr. Edward Hawley, Foreman  
of the United Rock Lumber Co.,  
Cleveland, Ohio.

TO WHOM IT MAY CONCERN:  
I have been a sufferer from  
dyspepsia and indigestion for  
years. I got nervous and weak and  
run down in health and was unable  
to attend to my work at times. I  
would suffer from gas in my  
stomach until I thought every  
moment was my last. I could  
not draw a full breath, every-  
thing I ate would distress me,  
my stomach would get sour and  
ferment. I had a pressure in my  
chest. I would get drowsy, have  
chills and sweat, and many symp-  
toms I cannot describe. I was  
advised to try Vetter's Dyspepsia  
Remedy, and I am thankful I did,  
for it cured me entirely. I can  
eat anything now without having  
any distress or troubles. I had  
before using the Remedy, I give  
this statement for the benefit of  
other sufferers. Edward Hawley,

# WHILE Too Cool for Best Results In Some Parts Of Lake and Missouri Valley

Regions, Week as a Whole  
Has Been Favorable to  
Growing Crops.

Winter Wheat Has Suffered From  
Heavy Rains in Southwest, Else-  
where It Has Advanced  
Favorably.

Washington, June 8.—The weather  
bureau's weekly summary of crop con-  
ditions is as follows:

While too cool for best results in  
portions of the lake region and in the  
Missouri Valley and Northern Rocky  
Mountain districts, with excessive  
moisture and lack of sunshine in the  
central Mississippi and lower Missouri  
valleys, the week, as a whole, has  
been very favorable in the districts  
east of the Rocky Mountains. Drought  
in the South Atlantic and East Gulf  
states has been very generally re-  
lieved, although more rain is needed in  
portions of Florida and in the central  
and west gulf coast districts. The  
north Pacific coast also experienced a  
favorable week, but in California, near-  
ly all crops were injured by continued  
drying north winds.

Over the western portions of the  
corn belt the growth of corn has been  
checked by lack of warmth and sun-  
shine, and it is much in need of culti-  
vation, while in the central and east-  
ern districts planting and replanting  
have been delayed by rains. Poor  
stands are reported from the lake re-  
gion, Ohio Valley and Middle Atlantic  
states. In the Southern states the gen-  
eral condition of corn is promising, al-  
though rain is needed in the central  
gulf coast district.

Winter wheat has suffered some-  
what from heavy rains in portions of  
Oklahoma and Missouri; elsewhere  
this crop has advanced favorably, but  
the outlook over the eastern portion of  
the winter wheat belt continues un-  
promising, although more or less im-  
proved in the Ohio Valley and middle  
Atlantic states. Wheat is now head-  
ing as far north as the central Missis-  
sippi Valley, harvesting being general  
in the southern states. On the North  
Pacific coast, the crop has advanced  
favorably and is heading; in Califor-  
nia, it is maturing rapidly, the late sown  
having been seriously damaged by hot  
winds.

With the exception of some weedy  
fields in South Dakota, spring wheat  
is in very promising condition in all  
districts.

Oats have made vigorous growth  
throughout the central valleys and  
Middle Atlantic states and a general  
improvement in the condition of this  
crop is indicated in nearly all districts.  
Seeding is now practically finished in  
the extreme northern section and har-  
vesting continues in the southern states.

As a whole there has been quite a  
decided improvement in the condi-  
tion of cotton over nearly the whole  
of the cotton belt. The crop has, how-  
ever, suffered some damage in Okla-  
homa and in Indian Territory from  
over-flows, and from insufficient mois-  
ture in scattered localities in Louisiana.

The week was exceptionally favor-  
able for transplanting tobacco, and  
this work has advanced satisfactorily,  
having been completed in Tennessee  
and North Carolina, and about three-  
fourths finished in Kentucky and Vir-  
ginia.

In the extreme northern states there  
is an encouraging outlook for apples,  
but in the Central Mississippi and  
Ohio valleys and Middle Atlantic  
states the prospects appear to be  
somewhat impaired by extensive  
dropping. In the Southern states a  
good crop of peaches is indicated.

not move part of the time. I con-

# 1000 CLAIMS Equal Not a Single Fact. Lima on Department Makes Their Claim a Fact.

Endorsed by scores of Lima citizens,  
who cheerfully make a public state-  
ment of their experience, the proof  
we have to back our claims that Doan's  
Kidney Pills cure every form of kid-  
ney ills, from a common headache to  
serious urinary disorders. Here is one  
local example. We have many more  
like it.

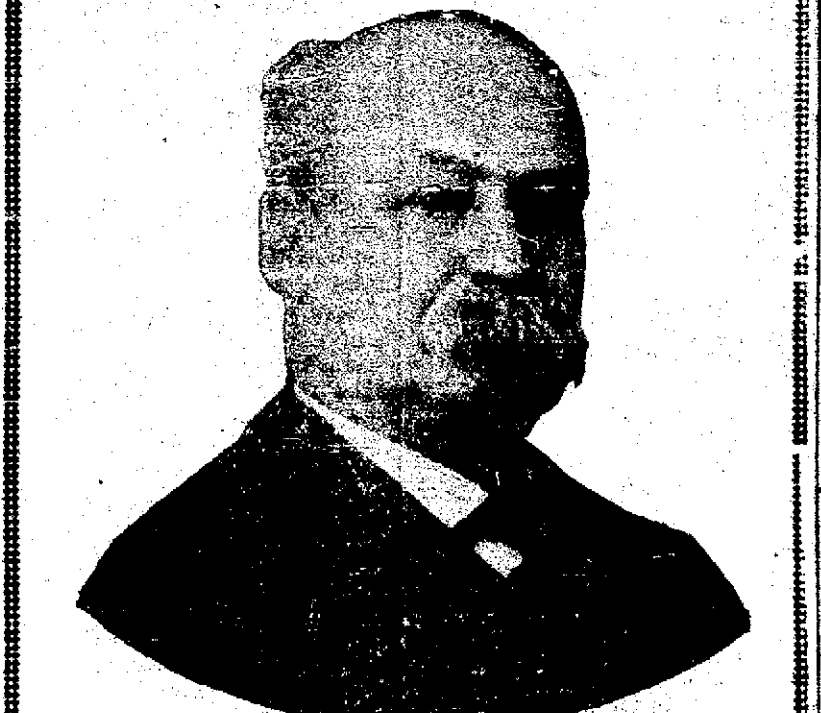

Mrs. Jas. McClintock, of 141 North  
West street, says: "For eight or nine  
years I had weakness of the back and  
kidneys. There was a tired heavy  
aching pain constantly through my  
loins, not sufficiently severe to confine  
me to the house, but it was a contin-  
ual source of worry to me. I tried dif-  
ferent remedies but nothing seemed to  
do me the least good until seeing  
Doan's Kidney Pills highly recom-  
mended, I procured a box of them at  
Melville's drug store and commenced  
the treatment. I felt benefited al-  
most at once from the results obtained  
and have no hesitation in recommend-  
ing Doan's Kidney Pills for I believe  
they are all they are represented to be."

cents a box. Foster-Milburn Co., Buf-  
falo, N. Y., sole agents for the United

**NATURE SPARES**  
The Stricken Horse From Grief.  
What a fortunate provision of nature  
it is, that deprives the rose of human  
suffering; for how poignant would be  
grief to discover in the midst of its  
blooming glory, that a canker had at-  
tacked its center; that its life and vigor  
were doomed forever. Nature spares  
the suffering; that is a world-  
wide source of pleasing thought. The  
horse who seeks his aid. In the year  
since by losing hair and graying hairs  
cast a gloom over the faces of thousands  
of young women, but thanks to the in-  
vestigations of scientists the true cause  
of hair destruction is now known to be  
a germ or parasite that burrows into  
the hair follicles. Newbro's Hair-  
restorer absolutely destroys this germ, thus  
preventing the hair to grow as nat-

erson Woman Remanded

bs Where She Has Been Confined Since  
kemaker Was Shot--While Nominally  
Held as Witness, Justice Refused  
Release on Habeas Corpus.

June 8.—Justice Clark, in a court today denied the habeas corpus for the release of Mrs. Nan Patterson, who is held in jail with the mysterious shooter Young, the well known for and turf man. Mrs. Patterson was remanded to the Tombs where she has been confined since the shooting of the kemaker was shot to death in a cab was driving to a steamship company with the young woman for Europe with his wife. She is held as a witness in the case of the shooting. She has intended that in case of a trial, she will be immediately released. She took a new turn today when Meyer of Jacksonville, Fla., announced that he was to the killing of Young, and that Young himself held the fatal shot. The story was told to the reporter of a newspaper, but later Meyer went to the district office and said he desired a formal statement in regard to the case. Mr. Jerome was not in at the time, but Meyer said he would return later in the day. Clark of the supreme court today dismissed the writ of habeas corpus in the case of Mrs. Nan Patterson, who is held in jail connected with the shooting of the kemaker and remanded the prisoner. Meyer's Story. There was another witness in the case, this was a man of feet, eight inches tall, and a straw hat. He had a small

# WHAT'S BRED IN THE BONE WILL OUT IN THE FLESH

of mankind as well as lower animals. We do not expect stock from common sires, physical giants from and midgets, nor well-developed, robust children from and sickly parents. It is contrary to the of nature and heredity, which are inviolable, unchange-

and fixed. Children not only inherit the features, form and disposition of their parents, but the mental and physical qualities, and diseases as well. That certain diseases are inherited from parents to children, are bred in the bone handed down from one generation to another, can not be denied, for we see evidences of it every where and every day.

**SCROFULA**, a disease almost as fatal as Consumption, is a of the blood, is bred in the bone and will out in the flesh in form of glandular swellings, deep abscesses and sores, eruptions. It affects the eyes and ears, weakens the digestion destroys the red corpuscles and solids of the blood, resulting in emaciation, stunted growth and poorly nourished bodies.

**RHEUMATISM** is handed down from gouty ancestors and to their children. The acid poisons in the blood that cause the shooting pains in muscles and joints have been there may be from birth, and exposure to bad weather, night air, or cold, easterly only hastens the attack by exciting the acid blood. The blood must be purified and the poisons filtered out of the system in order to get relief from this painful disease.

**CATARRH** is something more than a cold in the head; the poison extends into the throat and Lungs, attacks the Stomach, Kidneys and Bladder, and every part of the system. We inherit a predisposition or tendency to Catarrh, just like other blood diseases; it is bred in the bone and can not be reached with sprays and salves, but requires constitutional treatment and a thorough cleansing of the disease-tainted blood.

**CONTAGIOUS BLOOD POISON** is responsible for more suffering than all other diseases combined, and none is so surely transmitted from parent to child. Fearful ulcers, sores and disgusting skin eruptions often break out in infancy, and those whose blood is infected with this awful poison are handicapped from birth, and unless the poison is eradicated, carry the taint through life.

**CANCEROUS ULCERS** and old sores seem to pursue some families through generations, and in spite of washes, salves and ointments, continue to spread and grow because the taint is in the blood; is bred in the bone and grounded in the flesh.

Nothing but a real blood remedy like S. S. S. can reach these deeply rooted, inborn poisons. It goes to the fountain source of the trouble, uproots the old taint, drives out the poisons that have been lurking in the blood for years, and tones up the weakly constitution. S. S. S. reaches diseases of this character that no other medicine does or can. It has been tested in thousands of cases during the nearly fifty years of its existence, and its reputation as a cure for chronic blood troubles is firmly established.

S. S. S. is guaranteed purely vegetable and suited to old and young and persons of delicate constitution. If you have inherited a predisposition or tendency to some family taint, the sooner you begin a course of S. S. S. the quicker and more certain the cure. The disease may develop in childhood or later on in life, but is sure to make its appearance sometime, "for what is bred in the bone will out in the flesh," as sure as you live.

Our physicians make diseases of the blood and skin a special study. Write us all your case, and medical advice or any special information desired will cost you nothing.

Sued By His Doctor.

"A doctor here has sued me for \$12.50, which I claimed was for a case of cholera morbus," says R. White, of Coacchella, Cal. "At the trial he praised his medical skill and medicine. I asked him if it was not Chamberlain's Colic, Cholera and Diarrhoea Remedy he used as I had good reason to believe it was, and he would not say under oath that it was not." No doctor could use a better remedy than this in a case of cholera morbus, it never fails. Sold by all druggists.

More Yankee Ingenuity.

A peculiar weed which smotheres grass is puzzling the farmers of Greene and Christian counties. Evidently it is the climbing squasta. To get rid of the weed, which is really a vine, a farmer should plant a tenfoot pole in the center of the field and entwine the "feet" of the weed about it. The weed will then wrap itself around the pole and eventually will pull itself up by the roots.—Kansas City Star.

Father Healy put his head on one side and looked at the ocean, lost in thought. "Well," he said at last, with a gravely judicial air, "I don't think it would be missed."

# CLOSE TO NATURE.

## WHY SUNSHINE BRINGS HEALTH.

EVERYONE knows that the pure country air and a chance to get close to Nature in the fields and woods, is sure to improve our animal spirits and bodily health. We are only civilized animals after all, and the present dwellers in the cities are compelled to live in badly ventilated rooms or factories filled with the germs of disease—of grip, consumption or catarrh. They are compelled to eat their lunch hastily, and, in fact, to run the human machine at all times so improperly that they are constantly in danger of being sick. Sunshine and good air are essential for good health. Nature provides the germ destroyer, if we only find it in a life in the open air and sunshine. If we are run down physically, if our blood has too many of the white blood corpuscles and not enough of the red corpuscles, if we look pale and anaemic, or with pimples or hives appearing on the skin, it's a pretty sure warning that we need a little of nature's cure. For those who are confined indoors and need a strengthening tonic, a blood and body builder, there is a remedy provided by Nature which is sure and safe—an Alternative Extract from roots and herbs, without the use of alcohol, which nourishes the tissues and nerves with good red blood. That medicine was the discovery of Dr. R. V. Pierce, the founder of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y. It was sold by druggists thirty-seven years ago or more and has become more popular every year since, under the name of Dr. Pierce's Golden Medical Discovery. Dr. Pierce receives quantities of grateful letters and testimonials every day. It would take all of this newspaper's space to print those received in a single month. Here is a sample:

"About seven years ago my health failed, and I tried different doctors but they could not help me," writes Reuben S. Kleppinger, Esq., of Lehigh, Pa. (Box 673). "I was still getting worse. Had a cough, pain in chest, night-sweats, was weak and nervous. I decided to write to Dr. R. V. Pierce, of Buffalo, N. Y., and state my case. I received a prompt and careful reply, which I still have in my possession. The malady was a complicated one, involving the nasal and other air-passages. There was a catarrhal condition extending from head to the bronchia and lungs. The use of Dr. Pierce's Golden Medical Discovery and Dr. Sage's Catarrh Remedy was advised. I used about two dozen bottles of each, also some of Dr. Pierce's Pleasant Pellets, and these remedies have done their work. Since that time I don't believe I have lost a day's work on account of sickness. Am well and have been able to eat anything ever since. Thanks seem but a slight return for all the good your medicine has done me."

"About two years ago I consulted a physician to try and get relief from a cold which had stopped up my head, and also settled on my lungs, causing catarrh in a very bad form, and also throat difficulties," writes Justice Thomas E. Bourquin, 1808 Ogercher Road, Savannah, Ga. "He gave me some medicine, but one month's faithful use of same failed to do me any good, so I decided to try Dr. Pierce's Golden Medical Discovery, and bought a bottle. After using it a few days, my lungs began to heal. I did not cough nearly as much, slept much better, and in two weeks the cold, cough, catarrh and throat difficulty were all cured. I was certainly pleased with the results, and so wish to write you of it."

"We quote from the New York Journal the following: 'In Allen street, in eight blocks of tenement houses, live ten thousand seven hundred and thirty-seven human beings. The features of this miserable street are: 'Darkness; Dampness; Disease; Death. The deaths are especially plentiful among the very young children. Of all the New York streets in which evil conditions destroy child life Allen street is the worst. It has a record for killing children under five years of age. The street is very narrow, and the Second avenue elevated railroad running through it, filling it from house to house, roofs it in, making of it a dark, gloomy tunnel. On the ground it is dark all day, the lamps are always lighted. Diseases of the eye, pneumonia, tuberculosis, the rickets and other troubles of ill-nourished children, are features of this street. Among the dirt, the din, the darkness, the dampness of this infernal death tunnel, children are supposed to 'play. Do you wonder that they die off before they reach the age of five. As well try to grow a flower in a cellar as to bring up children in that horrid street to which poverty and the city's culpable neglect condemn so many families.'"

## TURF COMMISSIONER IS SERVING SENTENCE.

Cincinnati, June 8.—The United States court of appeals has denied former turf commissioner W. W. O'Hara a hearing in the case in which he was accused of using the mails to defraud. A mandate was sent to the U. S. Marshal to take O'Hara into custody at once. He was taken to Columbus to begin serving his 17 months term in the penitentiary.

## A Frightened Horse.

Running like mad down the street, dumping the occupants, or a hundred other accidents, are every day occurrences. It behooves everybody to have a reliable salve handy and there's none as good as Bucklen's Arnica Salve. Burns, cuts, sores, eczema and piles, disappear quickly under its soothing effect. See, at H. F. Vortkamp's drug store.

## TRAIN LOAD OF WEALTH.

New Haven, Conn., June 8.—An agreement has been reached in the Plant will case allowing the removal to New York of the assets of the \$16,000,000 estate of Henry Bradley Plant, over which there has been long litigation. Attorneys in the case say that details of the agreement will not be made public at this time.

## DON'T NEED HER.

Washington, D. C., June 8.—The state department has decided that the situation in Morocco does not warrant a change in the tenure of the big battleship fleet under Rear Admiral Barker's command, now lying at Lisbon. Portugal; so, according to the original plan, these ships will get under way on the 16th instant and enter the Mediterranean, not stopping at Tangier, but proceeding straight to Greece and Italian waters.

## HOLDS DECISION.

Canton, O., June 8.—At the conclusion of arguments in the preliminary hearing of Richard Quigley and Tina LaBelle, charged with the murder of George H. Taylor, Mayor Smith announced that he would take the question under advisement, and at 8:30 Thursday morning decide whether or not the prisoners should be held to the grand jury.

## SUPERB INAUGURAL PROCESSION

The Stately, Majestic, Ostentatious and Educational Pageant of Barnum and Bailey.

The parade of the Barnum & Bailey Greatest Show on Earth this year said to be superb and most marvelous. It contains many novel features of a high educational character which are of great value to every child. The inaugural parade will take place about 10 o'clock a. m. in all cities in which the great show will exhibit.

It will be a treat to all persons, but especially to the little folks, to see the novel features specially designed for this stupendous and substantial affair. The word novel is used advisedly. For there are twenty-nine of the most elegant and costly floats and triumphal chariots ever devised. They also contain many tableaux vivants, the figures correctly costumed in the national dress of nearly all the nations on earth, while the teams of splendid horses attached to them are accompanied by outriders, similarly attired, representing some special uniform of the nations. One of these huge floats requires a team of 40 elegantly matched horses and is driven by one man. Besides these, there will be many elephants, camels, Roman racing chariots of the same character as those used in the days of Pharaoh, mounted cavaliers, ladies and performers, displays of open dens of wild animals, carved golden cages of rare beasts, allegorical chariots illustrating children's fairy tales, nursery rhymes and fables, and a myriad of new features never seen in a parade or anywhere else. For with the usual disregard of expense invariably characterizing the Barnum & Bailey Show, they secured the best architects, artists and designers to construct an absolutely new parade for the pleasure of the people to signalize the home-coming of the show from its triumphal tour of the world.

## Triumphs of Modern Surgery.

Wonderful things are done for the human body by surgery. Organs are taken out and scraped and poisoned and put back, or they may be removed entirely; bones are spliced, pipes are the place of diseased sections of veins; antiseptic dressings are applied to wounds, bruises, burns and like injuries before inflammation sets in, which causes them to heal without maturation and in one third the time required by an old treatment. Chamberlain's Pain Balm acts on this same principle. It is an antiseptic and when applied to such injuries, causes them to heal very quickly. It also allays the pain and soreness. Keep a bottle of Pain Balm in your home and it will save you time and money, not to mention the inconvenience and suffering which such injuries entail. For sale by all druggists.

Market St. Presbyterian Church.  
Vice President Shayer, presiding.  
7:30—Song Service, led by Prof. Ex-  
cell or Prof. Landes.  
Prayer by Mr. Levi Minnich,

8:00—Address—Rev. J. Allen Geiss-

8:30—Address—"The Sunday School  
Teachers' Work," by Mr. W.  
C. Pearce, Chicago.  
9:30—Restful texts for night watches,  
Rev. Ellen King, Ashland.

The first day's session of the forty-  
fifth Ohio State Sunday School con-  
vention closed last night with an over-  
flow meeting of mammoth proportions.  
At Trinity church the formal address  
of welcome and responses by Marion  
Lawrence, international general sec-  
retary of the association, were listened  
to by perhaps the largest audience  
ever gathered within the walls. As  
early as 5:30 in the evening, two  
hours before the meeting opened, the  
church was well filled by those who  
were anxious, above everything else,  
to secure seats within hearing of the  
speakers, and at 7:30 there was a jam  
at the doors which made it difficult  
for those who were packed in the aisles  
to make their way to the overflow  
meeting. The same situation prevailed  
at Market St. Presbyterian, where  
another formal program of addresses  
and music had been announced and  
from both places the late comers made  
their way to the Congregational  
church, where speakers were provided  
and music rendered to the enjoy-  
ment of all.

The evening programs as published  
yesterday were carried out with but  
a few minor changes, and the variety  
was sufficient to keep everybody in-  
terested from beginning to end. Presi-  
dent E. A. Eudaly presided at Trinity,  
and as a leader has a happy knack of  
filling in the pauses which makes his  
appearance at all times agreeable to  
an audience.

The half hour song service, under  
the direction of Prof. Excell, brought  
out the full effect of the familiar tunes  
in one mighty chorus. At 8 o'clock  
the audience was prepared to listen  
to an address of welcome by Mayor  
Robb, who was to have been followed  
by Hon. W. B. Ritchie in another cor-  
dial welcome on behalf of the citizens  
of Lima and Allen county, but the an-  
nouncement was made that his honor  
was unable to attend, and it remained  
for Mr. Ritchie to explain the reason  
of his absence.

The latter stated that Mayor Robb  
had requested him to make the greet-  
ing a general one, and to include his  
own welcome with that of the mayor.  
Mr. Ritchie added that his honor took  
the stand that an address of welcome  
to such a gathering should be made  
by some one who was not familiar  
with Sunday school work, and there-  
fore begged to have the duty perform-  
ed by some other than himself. "For  
that reason," said Mr. Ritchie, "Judge  
Robb is not present and I am. But  
there is another, and even a better  
cause for the chief executive's ab-  
sence. He could not, as would be his  
duty on this occasion, deliver to you  
the keys of the city, for he has al-  
ready presented them to the undertak-  
ers. There shall be no lack of free-  
dom for you, however, as the most  
natural thing for the undertakers to  
do, was to bury the keys and all ways  
are now open to our distinguished  
visitors." Mr. Ritchie's closing re-  
marks pertained to the great good  
being done as shown by the presence  
in Lima of such a great band of workers,  
and he added the hope that the dele-  
gates would return to their homes  
pleased with the city's hospitality and  
richer in the truths to be learned at  
the convention's gathering.

Dr. D. A. Bechman welcomed the  
visitors in a splendid address on be-  
half of the Sunday schools, and re-  
marked that one could judge from the  
enthusiasm that good seed would be  
sown abroad.

Speaking for the churches, Dr. R. J.

Thomson paid a grand tribute to the  
Sunday schools and its workers, as an  
aid to the ministers. He sprinkled  
his remarks with anecdotes illustra-  
tive of the deeds done and to be done,  
and roused the enthusiasm of his  
hearers in a fitting welcome to the  
city and its places of worship.

The greeting of Marion Lawrence  
with the Chatauqua salute was a pro-  
py sight. A sea of waving white  
handkerchiefs surpassed the usual  
clamor and applause and men with  
readier tongues, than the great Sun-  
day school apostle would have faltered  
for words to do justice to such a  
magnificent acknowledgment. It is a  
coincidence brought to light in Mr.  
Lawrence's address on "Childhood  
of the World," that he stood on the  
same platform twelve years ago  
to the day when Lima for the first  
time entertained the state convention,  
and his memories ran back to that  
earlier period when he gave up his  
life work to the cause in which he is  
now so intensely interested. He re-  
called to mind that Dr. Thomson also  
made an address on that occasion,  
and elicited considerable laughter  
when he added that some of that same  
address was repeated here, tonight.  
His subject was ably treated, and  
many new phases in the child life  
of the men and women who are being  
taught the road to righteousness, were  
brought to light.

President Eudaly responded in his  
happy manner to the address of wel-  
come and the meeting closed with  
"Restful texts for night watches" con-  
ducted by Rev. E. Bourner, of Toledo.  
At the same hour of the services at  
Trinity church, Hon. H. E. Baker, of  
Zanesville, presided at a meeting  
from which hundreds were turned  
away. The music was led by Prof.  
W. S. Landes, of Elgin, Illinois, who  
is dividing honors with Prof. Excell,  
and the program throughout was an  
enjoyable one.

Among the most prominent speak-  
ers present is W. C. Pearce, of Chi-  
cago, international teacher-training  
secretary, and his address was much  
along the same line as that of Mr.  
Lawrence, his subject being "The  
Children for Christ." Many words  
of praise are heard of his efforts during  
the two days of the convention, and  
there are still opportunity for those  
who have not yet had the pleasure of  
hearing him.

#### LIVE TOPICS

Discussed and Two Good Addresses  
Delivered.

The same expression will do in re-  
ference to all of the meetings, as  
standing room only is the sign which  
is sure to be greeted by late comers.  
It was so yesterday afternoon when a  
Round Table meeting was conducted  
at Trinity church by President Eudaly.  
A list of pertinent topics were sug-  
gested, but delegates were permitted  
to offer any question which needed  
light, and many such were presented.  
Addresses were delivered by Rev.  
Ernest B. Allen and W. C. Pearce, of  
Chicago, the former treating the sub-  
ject, "Make Jesus King," in his elo-  
quent and convincing manner. It was  
for that purpose that such an  
organization existed, and it was a  
thought for every delegate to keep  
uppermost in his mind.

Mr. Pearce discussed the "Modern  
Sunday school Movement," tracing its  
early history, and laying great credit  
at the feet of those great leaders in

religious movements, Moody, Rey-  
nolds and Jacobs.

#### COMMITTEES AT WORK

And Reports Will Be Made Thursday  
Morning.

At the close of the services yester-  
day afternoon the president announ-  
ced the committees who have charge of  
the various departments, and their re-  
port will be made at Trinity church  
tomorrow morning. The appoint-  
ments were as follows:

ert Hadden, Lawrence county; Waldo  
D. Webster, Trumbull county; Rev.  
W. A. Wiant, Preble county; J. C.  
Clark, Wayne county; W. H. Mitchell,  
Champaign county; T. D. Danforth,  
Union county; Rev. Wm. M. Curry,  
Allen county; Rev. John Ewalt,  
Adams county; Rev. J. H. Thome,  
Huron county.

din county; Rev. Charles Bennett,  
Wyandot county; Dr. J. M. Avann, Al-  
len county.

Dean, Greene county; Prof. M. A.  
Jameson, Warren county; Mr. H. A.

Banner Award—Mr. C. H. Shinn,  
Licking county; Mr. A. P. Wendell,  
Auglaize county; Rev. D. Evan Jones,  
Van Wert county.

#### SOUVENIRS PRESENTED

To the Counties Represented and in  
Good Standing.

An interesting feature of the con-  
vention took place this morning at  
Trinity church, when an American  
flag and a gavel, made of Olive wood,  
brought from the world's convention  
at Jerusalem, was presented to the  
counties having delegates present and  
which had paid the full apportionment.

The roll was called and the dele-  
gates numbering from one to 37 re-  
sponded with a verse of scripture, after  
which the souvenirs were delivered  
by the pages. The grand climax  
came when the roll was again rapidly  
called, each delegation rising and un-  
furled the flag. It was grand patri-  
otic finale, and when Prof. Excell led  
"Halleluia," the great audience joined  
in a spirit of unbounded fervor.

The remainder of the morning ser-  
vice was devoted to remarks made by  
Dr. Joseph Clark, general secretary,  
on "The Organized Work in Ohio for  
1903-04, and the Finish of the Old, and  
Start of the New Year," a subject in  
charge of the state officers, who are  
present. The conclusion arising  
from the statements made by Dr.  
Clark and others is that Ohio stands  
in the front rank with states that are  
doing magnificent work and showing  
splendid results in its Sunday schools.

#### CROWDING THE HOURS

Many Sessions Demand an Early  
Start and Continued Gathering.

The day's exercises opened with an  
early morning prayer service at Mar-  
ket street Presbyterian church, from  
6 to 7 o'clock, and exercises continued  
after an hour's intermission from 8  
until after nine, during which the only  
official conference of the convention  
was held.

County and township officers were  
present, including many of the  
delegates and visitors and an informal  
discussion of questions bearing on orga-  
nized work was held.

Legion of 17:45 today and con-  
tinuing until 2 o'clock a big meeting  
was held at the Congregational  
church, where the topic, "What Shall  
Be Done With the Day?" was dis-  
cussed by representative citizens of  
Cleveland, Toledo, Cincinnati and  
Columbus. W. C. Pearce, of Chicago;  
Marion Lawrence of Toledo, and O. H.  
Cross, of Cleveland, took a leading  
part at the meeting and many good  
suggestions for improvement were ad-  
vanced by those who recognized the  
importance of keeping religious work  
to the front in the affairs of their re-  
spective cities.

#### Convention Notes.

On Thursday evening from five to

seven o'clock in Market street Presby-  
terian church, the teachers of the pri-  
mary and junior union of the city of  
Lima will hold a reception for the  
visiting primary and junior teachers.

At noon today the register clerk re-  
ported the names of 1,000 visitors in at-  
tendance at the convention, over 800  
of whom are delegates with creden-  
tials. A large number who are not  
taking part in the business sessions  
have not given their names and the  
total attendance is conservatively esti-  
mated at 1,500. There were new ar-  
rivals today on every train, and the  
convention, in point of numbers and  
interesting meetings is the best in the  
history of the association.

#### NOTICE

All persons having offered free lodg-  
ing who have not received their dele-  
gates will please notify the entertain-  
ment committee at the Y. M. C. C. A.

furnish such entertainment please so  
notify us.

C. A. GRAHAM,  
Chairman.
